"We had Shaun DJ our wedding September 11, 2010. All through the planning process Shaun was very enthusiastic and answered all inquiries whether phone calls or emails very promptly. We met in person a few weeks before the wedding so Shaun could get to know our style and to give him a song list. At the wedding, he definitely read the crowd while integrating our requested song list into the evening. Literally, the dance floor was never empty. We had an absolute blast and we have had several guests from our wedding tell us it was the funnest wedding they had ever been to ( which I give a lot of the credit to Shaun). One of my friends that attended the wedding is getting married next year and she loved Shaun as a DJ so much she plans to hire him for her own wedding! Shaun exceeded our expectations as a DJ and we would recommend him to anyone!!"

Shaun has been our D.J. for many family occasions throughout the years. He is very professional, and it was only natural to ask him to play at our wedding. He keeps the clients wants and needs in mind and is very easy to work with. Shaun offers a service that is reasonable in price without compromises! Thanks again Shaun for a great night!

## **Elisabeth and Jake Woodworth January 22, 2011**

My fiancé and I hired Shaun Kelly for our wedding reception and he was the best! He got all the names right when he announced and he made sure that we got the most out of our reception, taking time to make sure that we liked the lighting and that we were happy with our playlist. He called to check up and go over a few things before the big day. I found him through our reception hall and once I went on his website and listened to his audio clip and read about

his experience I knew he would be great. He was really easy to work with and genuinely cared about making sure we were happy. He took requests from the guests and everyone was pleased by being able to hear their favorite songs. At the end of the night all of our guests said that the music was great and that the DJ really knew how to keep the flow going. From the moment the dancing started the dance floor was always full, and everyone was having a good time. If I had to do it again I would still hire Shaun and I would recommend him to anyone that needed a DJ for any occasion. His energy could be felt throughout the night and he really helped make our night special.
